ABOUT US

TaskHome is a new standard in the modular home market in Poland. We combine over 30 years of experience in steel construction, innovative prefabrication, and a flexible approach to the customer, so everyone can enjoy their dream home quickly – without compromising on quality, safety, or aesthetics.

We believe that owning your own home shouldn't be synonymous with stress, delays, or unexpected costs. Our hybrid modular homes are a solution that combines durability, functionality, and rapid turnaround – from construction to finished developer status in just 3 months!

We offer solutions for those seeking a year-round or summer home who value modern technology, durable construction, and comfortable living. Our homes address the needs of families, investors, and individuals who want to quickly and safely realize their dream of owning their own home.

COMPACT HOLIDAY HOUSE MODEL W-1

Dreaming of your own home for weekend getaways, summer vacations, or family get-togethers outside the city? The W-1 model is a single-segment summer home with a built-up area of 35 m² that combines simple construction with ease of use and full functionality.

Practical room layout

Although compact, the W-1 holiday home has everything you need for a comfortable stay:

- A living room with a kitchenette – the heart of the cottage, where you can cook together, spend time together, and enjoy the holiday atmosphere,
- A bedroom – a quiet space to relax after an active day,
- A bathroom – with plumbing ready for installation,
- A mudroom – a practical entrance area.

This layout makes the cottage functional despite its small size and perfect for both a couple and a small family.

W-1 PLAN

FOUNDATION

The W-1 model stands out for its exceptionally simple and quick assembly. The house is built on just 10 concrete blocks, which means:

- no need to pour foundations,
- no floor contact with the ground – greater durability and protection from moisture,
- and can even be installed on recreational plots or in more challenging terrain.

FINISH PACKAGE

PRICE FROM 40 700 € NET

The finishing package includes:

- basic package.
- change of ceiling material from plasterboard to a pine soffit with a double-coated impregnation, color depending on the investor's choice,
- change of wall material in non-wet rooms from plasterboard to a pine soffit with a double-coated impregnation, color depending on the investor's choice,
- finishing of wet room walls with waterproof Rocko boards by Kronospan (board selection depending on the investor's choice),
- finishing of floors with waterproof Rocko boards by Kronospan (board selection depending on the investor's choice),
- skirting boards.

The presented offer is for informational purposes only and does not constitute an offer within the meaning of Article 66, paragraph 1 of the Civil Code in force in Poland. All prices presented are net and are valid as of July 1, 2026. Price at the exchange rate of €1 = PLN 4.30
